These consolidated interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standard of auditing applicable to interim financial reporting in the Kingdom of Saudi Arabia issued by the Saudi Organization for Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the consolidated interim financial statements taken as a whole. Accordingly, we do not express such an opinion.

Review Results

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with generally accepted accounting standards in the Kingdom of Saudi Arabia.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized as income immediately.

Components of equity, other than retained earnings, are held at the historical rates. Translation adjustments are recorded as a separate component of consolidated interim stockholders' equity. Translation loss that is considered permanent is charged to the consolidated interim statement of income.

Provision for obligation

A provision is recognized in the consolidated balance sheet when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.
