Al Khobar, Saudi Arabia

Scope of Review

We have reviewed the consolidated interim balance sheet of United Electronics Company (a Saudi Joint Stock Company) as of June 30, 2014 and the related consolidated interim statements of income for the three months and six months periods then ended, consolidated interim statements of stockholders' equity and cash flows for the six months period then ended, and notes 1 to 9 which form an integral part of these consolidated interim financial statements as prepared by the Company and presented to us with all the necessary information and explanations. These consolidated interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standard of auditing applicable to interim financial reporting in the Kingdom of Saudi Arabia issued by the Saudi Organization for Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the consolidated interim financial statements taken as a whole. Accordingly, we do not express such an opinion.

Review Results

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with generally accepted accounting standards in the Kingdom of Saudi Arabia.

(SAUDI JOINT STOCK COMPANY)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Continued)
FOR THE THREE MONTHS AND SIX MONTHS PERIODS ENDED JUNE 30, 2014

Revenue recognition

Sales are recognized upon delivery of goods to customers. Rental income, principally for rental of floor and shelf space, is recognized on an accruals basis based on the terms of rental contracts. Service income is recognized when services are rendered to the customers.

Revenue from extended service plan is recognized on a partial basis whereby a portion of revenue is recognized at the time of sales while the remaining portion is deferred and amortized over the period of service agreement.

Expenses

Selling and distribution expenses principally comprise of costs incurred in the sale and distribution of the Group's products. All other expenses are classified as general and administrative expenses.

General and administrative expenses include direct and indirect costs not specifically part of cost of revenue as required under generally accepted accounting principles. Allocations between general and administrative expenses and cost of revenue, when required, are made on a consistent basis.

Cash and cash equivalents

Cash and cash equivalents comprise cash, bank balances and highly liquid investments with original maturities of three months or less.

Accounts receivable

Accounts receivable are carried at original amount less provision made for doubtful receivable. A provision for doubtful accounts is established when there is significant doubt that the Group will not be able to collect all amounts due according to the original terms of accounts receivable.

Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is determined on a weighted average cost basis.

Investments

Investment in subsidiaries

A subsidiary is an enterprise that is controlled by the Group by governing the financial and operating policies. Investments in subsidiaries which are dormant or under pre-operation stage or where the information is not available are stated at cost. The carrying amounts of such investments are reduced to recognize any impairment in the value of the investment.

Investments held for trading

Investments held for trading are stated at fair value and unrealized gains and losses thereon are included in the consolidated interim statement of income.

Where the fair value is not readily determinable, such equity securities are stated at cost less allowance for impairment in value

Property and equipment

**UNITED ELECTRONICS COMPANY AND ITS SUBSIDIARIES
(SAUDI JOINT STOCK COMPANY)**

**NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Continued)
FOR THE THREE MONTHS AND SIX MONTHS PERIODS ENDED JUNE 30, 2014**

The estimated useful lives of the principal classes of assets are as follows:

	<u>Years</u>
Buildings and leasehold improvements	10 – 33
Furniture, fixtures and office equipment	4 – 10
Vehicles	5

Impairment

As of each balance sheet date, the Group reviews the carrying amounts of its property and equipment to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. Impairment losses are recognized as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized as income immediately.

Foreign currency transactions

Transactions in foreign currencies are recorded in Saudi Riyals at the rate ruling at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date. All differences are taken to the consolidated interim statement of income.

Financial statements of foreign entities are translated into Saudi Riyals using the exchange rate at the balance sheet date for assets and liabilities and at the average exchange rate for revenues, expenses, gains and losses. Components of equity, other than retained earnings, are held at the historical rates. Translation adjustments are recorded as a separate component of the consolidated interim stockholders' equity. Translation loss that is considered permanent is charged to the consolidated interim statement of income.

Provision for obligation

A provision is recognized in the consolidated balance sheet when the Group has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

End-of-service indemnities

End-of-service indemnities, required by applicable laws, are provided in the consolidated interim financial statements based on the employees' length of service.

Zakat

The Company is subject to the Regulations of the Department of Zakat and Income Tax ("DZIT") in the Kingdom of Saudi Arabia. Zakat is calculated and accrued for the period based on estimation. Zakat is recorded at the period end based on period end figures and any difference between the estimate and the actual is adjusted at that time. Any difference between the estimate and final assessment is recorded when settled.
